D. S. ESTILL, PUBLISHER.

OWINGSVILLE, KY.

SUBSCRIPTION, \$1 YEAR IN ADVANCE.

THURSDAY, APRIL 16, 1896.

ANNOUNCEMENTS.

We are authorized to announce Samuel T. Jones, of White Oak, a candidate for the Democratic nomination for Jailer of Bath county, Election, November, 1897.

John Jackson, of Preston, is a candidate for the Democratic nomination for Jailer of Bath Co.

We have lost so much by unpaid announcements of candidates for political nominations and offices that we have made an invariable rule to require the cash in advance for all such announcements inserted in THE OUTLOOK.

The identity of all writers of communications for publication in THE OUTLOOK must be known to the editors to insure insertion; that you write for us, else your communication will not be printed. We will not publish the writer's name unless by his consent.

WOOD DENLEY, the ex-constable, says "No man can know what he is doing in for the past forty days." Such is politics.

From the expression of opinion before the recent Bath Republican convention it appeared that the overwhelming sentiment in this county was for McKinley. The instruction for Bradley was a policy play of some of the aspiring leaders.

CATRON, delegate to Congress from New Mexico, named his son as cadet to Annapolis, another son as alternate, and another Catron, possibly also son, as cadet to West Point. That is what might be called cat'rin' to a personal family sentiment.

CONGRESSMAN WALTER EVANS, of Louisville, is opposed to appropriations of the people's money for sectarian purposes—unless it advances his political ambition. He successfully championed a bill giving the Howard University (colored), of Washington, an appropriation, which will further advance his political ambition. When that becomes established as a proper policy of government there will be no end to demands for similar institutions.

The Louisville Democrats want to shoo Evans in regard to the calling of elections to fill the vacancies in the General Assembly. They are going to demand that an election be called for choosing a successor to the late Senator Rozel Welsinger. It would be an unmitigated outrage for the Governor not to issue calls for all vacancies, if there is to be a special session of the General Assembly, in time for the vacancies to be regularly filled by the people of the respective districts.

The Republican alliance revolt in Congress causes to be told some truths unpalatable to the Eastern Republican leaders. Republican Senator Mantle, of Montana, stated in a speech that the Dingley bill was not a measure designed for protection or revenue, but, he believed, it was a political measure. Still, the authors and promoters of it hypocritically pretend that it was for the purpose of supplying a deficiency in the revenue, and no doubt will try to convince the people in the campaign this year.

Gov. BRADLEY is making himself solid with the influential convicts and their friends by turning the former out of prison. At the rate he is pardoning them, now he bids fair to make a new record, surpassing even that of soft-hearted Gov. Blackburn. Since it is already difficult entirely beyond a healthy sense of public sentiment and just government to secure the conviction of criminals of influential connections, Gov. Bradley's free exercise of the pardoning power may not make him popular with the law-abiding element of his own party. Corrupt politics is the opportunity of lawless people.
